

## ICC Websites

**This info is important to save as it helps you find the right website for the cleanup.** Hope this is helpful.

This is the Ocean Conservancy's coordinators site. Lots of great background info and pdfs for your use. Check it out.

This site lets you look at your site info and add photos or edit your sites info as it appears on the national website

**This site is also where you can see the registrations for your site.** You sign in with your email and the password is your last name. On the first page at the bottom, you will see 'Reports.' Click on that and select the dates you want to see, select either to see all registrations from all the SITES or all from STATE. You will then see all the people who have registered. **You should have already contacted them with a Welcome email and any specific info for your site.** I have attached today's excel of registrations for all the sites. It will change as more registrations are received so check it frequently. ps. please email any of last year's volunteers and invite them to this year's cleanups.

This site is Online Data Reporting Tool where you will insert the totals of debris from your site

The EPA toolkit will be posted to the ICC Coordinator's Resources page ([www.oceanconservancy.org/coordinators](http://www.oceanconservancy.org/coordinators)) under "Other Resources." You may download the materials appropriate for your specific outreach efforts.
