On September 17<sup>th</sup>, 2011, hundreds of thousands of volunteers will participate in the Ocean Conservancy's International Coastal Cleanup, the world's largest volunteer event of its kind. Last year over 500,000 volunteers from 114 countries and 45 states cleared over 8 million pounds of trash from oceans and waterways and recorded every piece of trash collected. Come help this worthwhile effort.

## *Impact Ocean Conservancy's International Coastal Cleanup has made in 21 years*

116 million pounds of trash that has been collected weigh more than ...

- 400 blue whales, the largest animal ever to live on earth
- The weight of the Statue of Liberty – 258 times

211,460 miles of shoreline that is cleaner because of volunteer efforts ...

- Is enough distance to circle the earth more than 8 times
- Is equal to driving between Los Angeles and New York almost 76 times
